#### **CASE STUDY**

### Read the following case study carefully and answer the questions that follow:

Rumours started doing the rounds in a computer company that develops software for industry. These rumours imply that the company plans to do its own marketing and to implement its products for clients itself to become more competitive. These rumours resulted in a drastic increase in conflict between employees.

Management heard the rumours and a representative committee was formed in an attempt to deal with the conflict, to improve relationships and to set employees' minds at ease by pointing out that only a preliminary investigation has been undertaken thus far. During a meeting of this committee, management also mentions that if these developments did indeed happen, it would expect its employees to fulfil these additional functions, but that they would be notified in good time and would be remunerated if the company were to become more profitable. Management also expressed their concern about the possibility of specialists leaving the company as they are sought-after by other computer companies. During the meeting, management was also blamed for withholding information from employees, who stated that any form of change will affect them negatively and that it is not acceptable that they are merely informed of such a decision.

As an Industrial psychologist, you want to assist the manager to find the best possible approach of dealing with this situation

#### **QUESTIONS**

- 1 Describe intentions in the conflict handling process (2)
- Discuss the possible conflict handling intentions that management can consider. Which one would you recommend to management and why? (12)
- Describe how Kurt Lewin's model can be used to manage change if management decides to proceed with its plans

  (6)
- Give a balanced view of the possible value of resistance to change and describe two sources of resistance to change that possibly influenced individual employees' attitude toward management (5)

#### MARK READING SHEET INSTRUCTIONS

Your mark reading sheet is marked by computer and should therefore be filled in thoroughly and correctly

#### USE ONLY AN HB PENCIL TO COMPLETE YOUR MARK READING SHEET

PLEASE DO NOT FOLD OR DAMAGE YOUR MARK READING SHEET

Consult the illustration of a mark reading sheet on the reverse of this page and follow the instructions step by step when working on your sheet

Instruction numbers **1** to **1** refer to spaces on your mark reading sheet which you should fill in as follows

Write your paper code in these eight squares, for instance

P S Y	1 0	0 -	X
-------	-----	-----	---

The paper number pertains only to first-level courses consisting of two papers

WRITE 0 1 for the first paper and 0 2 for the second If only one paper, then leave blank

- Fill in your initials and surname
- Fill in the date of the examination
- Fill in the name of the examination centre
- WRITE the digits of your student number HORIZONTALLY (from left to right) Begin by filling in the first digit of your student number in the first square on the left, then fill in the other digits, each one in a separate square
- In each vertical column mark the digit that corresponds to the digit in your student number as follows
- WRITE your unique paper number HORIZONTALLY

  NB Your unique paper number appears at the top of your examination paper and consists only of digits (e.g. 403326)
- In each vertical column mark the digit that corresponds to the digit number in your unique paper number as follows [-]
- Question numbers 1 to 140 indicate corresponding question numbers in your examination paper. The five spaces with digits 1 to 5 next to each question number indicate an alternative answer to each question. The spaces of which the number correspond to the answer you have chosen for each question and should be marked as follows. [-]
- For official use by the invigilator Do not fill in any information here
