### RISK MANAGEMENT: LONG TERM INSURANCE

Duration 2 Hours 70 Marks

**EXAMINERS** 

FIRST MR WK MPHANJUKELWA

SECOND MR LP MAMARO EXTERNAL PROF RW VIVIAN

Use of a non-programmable pocket calculator is permissible

Closed book examination

This examination question paper remains the property of the University of South Africa and may not be removed from the examination venue

This paper consists of 21 pages in total, including 3 pages for rough work

This paper comprises two sections, A and B

Section A comprises multiple-choice and true/false questions

Section B comprises paragraph and essay-type questions

Both sections must be answered in the designated area below the question. You must answer all the questions

#### Please note:

- This is a fill-in examination paper and there is no need for any examination scripts. Students must hand over the examination paper to the invigilator before leaving the examination hall.
- 2 NO MARK-READING SHEET IS PROVIDED for the multiple-choice questions. The answers must be indicated on the exam paper as instructed.
- 3 Any silent, non-programmable, battery operated pocket calculator may be used.
- 4 Pages for rough work have been provided (see pages from 19 to 21). No rough work will be marked.

## SECTION A: MULTIPLE-CHOICE AND TRUE/FALSE QUESTIONS

Indicate the correct answer to each question by writing the number of the correct option in the table on page 6.

Question 1 [10 Marks]

- 1 1 Life insurance companies assess risks in terms of
- a mortality in permanent health insurance
- b occupation and medical condition in personal accident insurance
- c morbidity in life insurance
- d medical condition and medical history in hospital and medical insurance

#### Choose the correct combination

- 1 a, b, c, d
- 2 a, b, c
- 3. b, d
- 4 c. d
- 1.2 In which category would you classify credit life insurance?
- 1 Whole life
- 2 Term
- 3 Endowment
- 4 Universal life
- 1 3 Morbidity rates
- are used to calculate premiums for life benefits the proposer might want.
- are used to calculate premiums for disability benefits the proposer might want.
- 3 used by life insurers are based on census statistics
- 4 are not impacted by HIV/AIDS
- 1.4 Defined contribution funds
- 1 are less flexible about retirement ages when compared to defined benefits funds
- 2 usually present an open-ended contribution and liability to employers
- 3 have an easily calculated member share of the fund
- 4 lead to cross-subsidisation between members, dependent on their ages

- 1.5 Indicate the correct statement.
- 1 Policy loans approved by a life insurer are paid from the investment account of the policy.
- The value of a policy loan granted is limited to a percentage of the cash value of the policy
- 3 No interest is charged on policy loans where the policy has a surrender value
- 4. Policy loans are paid out from the money retained in the reserve account of the life insurer
- 1.6 The difference between medical schemes and health insurance is that ...
- contributions to hospital cash plans are taxable while contributions to medical schemes are not
- 2 hospital cash plans pay the hospital for all the medical expenses while medical schemes pay the member.
- hospital cash plans are only for accidents sustained at work while medical schemes cover natural illnesses.
- 4 medical schemes fall under the Medical Schemes Act while hospital cash plans fall under the Long- and Short-term Insurance Acts
- 1 7 Competition is an important aspect to be considered by the underwriter. Competition will ensure that the policy
- a is equitable
- b provides benefits that meets the need of the buyer
- c delivery is prompt
- d premium is much lower than that of the competition

## Choose the correct combination

- 1 a, b, c, d
- 2 a, b, c
- 3. b, d
- 4 c,d

#### 1.8 Indicate the correct statement

- A risk class as it applies to life insurance is a group of insured who present a dissimilar morbidity risk to the insurance company
- The standard life insurance risk class includes individuals with impairments that can be expected to shorten their life span
- 3. Proper underwriting helps guard against anti-selection in life insurance
- The preferred life insurance risk class includes individuals whose anticipated mortality is regarded as average

#### 1.9 Indicate the correct statement

- 1. Any annuity arranged or paid by a pension fund is a voluntary annuity
- 2. The gender of a person applying for a compulsory annuity will have no impact on the annuity the insurer is prepared to guarantee
- With an annuity certain, the annuity will cease if the annuitant dies within the stipulated period
- 4 Indexed annuities are normally issued with a minimum annual interest to protect the investor against stock crashes
- 1 10 The following persons are disqualified from receiving a benefit from the will of the testator
- a A person that attest and sign the will as witness
- b The spouse of the person who signs the will on behalf of the testator
- c A person who writes the will in his or her own handwriting
- d A person generally disqualified but declared by a court competent to receive a benefit

#### Choose the correct combination:

- 1 b, c, d
- 2 a, b, c
- 3 a, b, c, d
- 4 a, c
